EUROL MPG EP SAE 80W90 GL4

Mineral transmission oil for manual gearboxes and final drives

Description

Eurol® Multi-Purpose Gearoil is formulated from paraffinic base stocks and additives, including EP (Extreme Pressure) additives according to the phosphor/sulphur technology.

Eurol® Multi-Purpose Gearoil is recommended for many types of manual gearboxes and final drives in passenger cars, buses and commercial vehicles and for which an API GL-4 transmission oil is prescribed.

Eurol® Multi Purpose Gearoil also contains additives preventing from corrosion, oxidation and foam building. By this a smooth shifting is guaranteed for a long time. Furthermore, the SAE 80W and 80W-90 viscosity grades have an excellent low temperature fluidity.

Seals are not affected by Eurol® Multi Purpose Gearoil and the product prevents from undesired deposits.
