KING KAR
ECO TECHNOLOGIES

What Is HHO 6.0

- **Technical Parameters for HHO Machine**

Input Voltage	110V/220V/380V, 50/60Hz Single phase/ three phsae	**Rated Capacity (KVA)**	≤7.5	**Water Consumption (L/h)**	0.8
Working Method	Automatic	**The Insulation Level**	F	**Power Supply Protection Grade**	IP21S
Working Gas Pressure (Mpa)	≤ 0.08	**Working Temperature (℃)**	0--40	**Outline Dimensions L*W*H (mm)**	630*760*900
Net Weight (Kg)	130	**Engine Displacements**	Above 1.6L	**Process Time**	20mins

- HHO Carbon Cleaner Agent

www.ckkar.com

www.hhocarboncleaner.com

KING KAR
ECO TECHNOLOGIES

What Is HHO 6.0

- **Technical Parameters for HHO Agent**

1. Liquid, blue color
2. PH value is 7.0
3. Can be shipped by air & sea
4. Non-corrosive, non-flammable, friendly to environment.

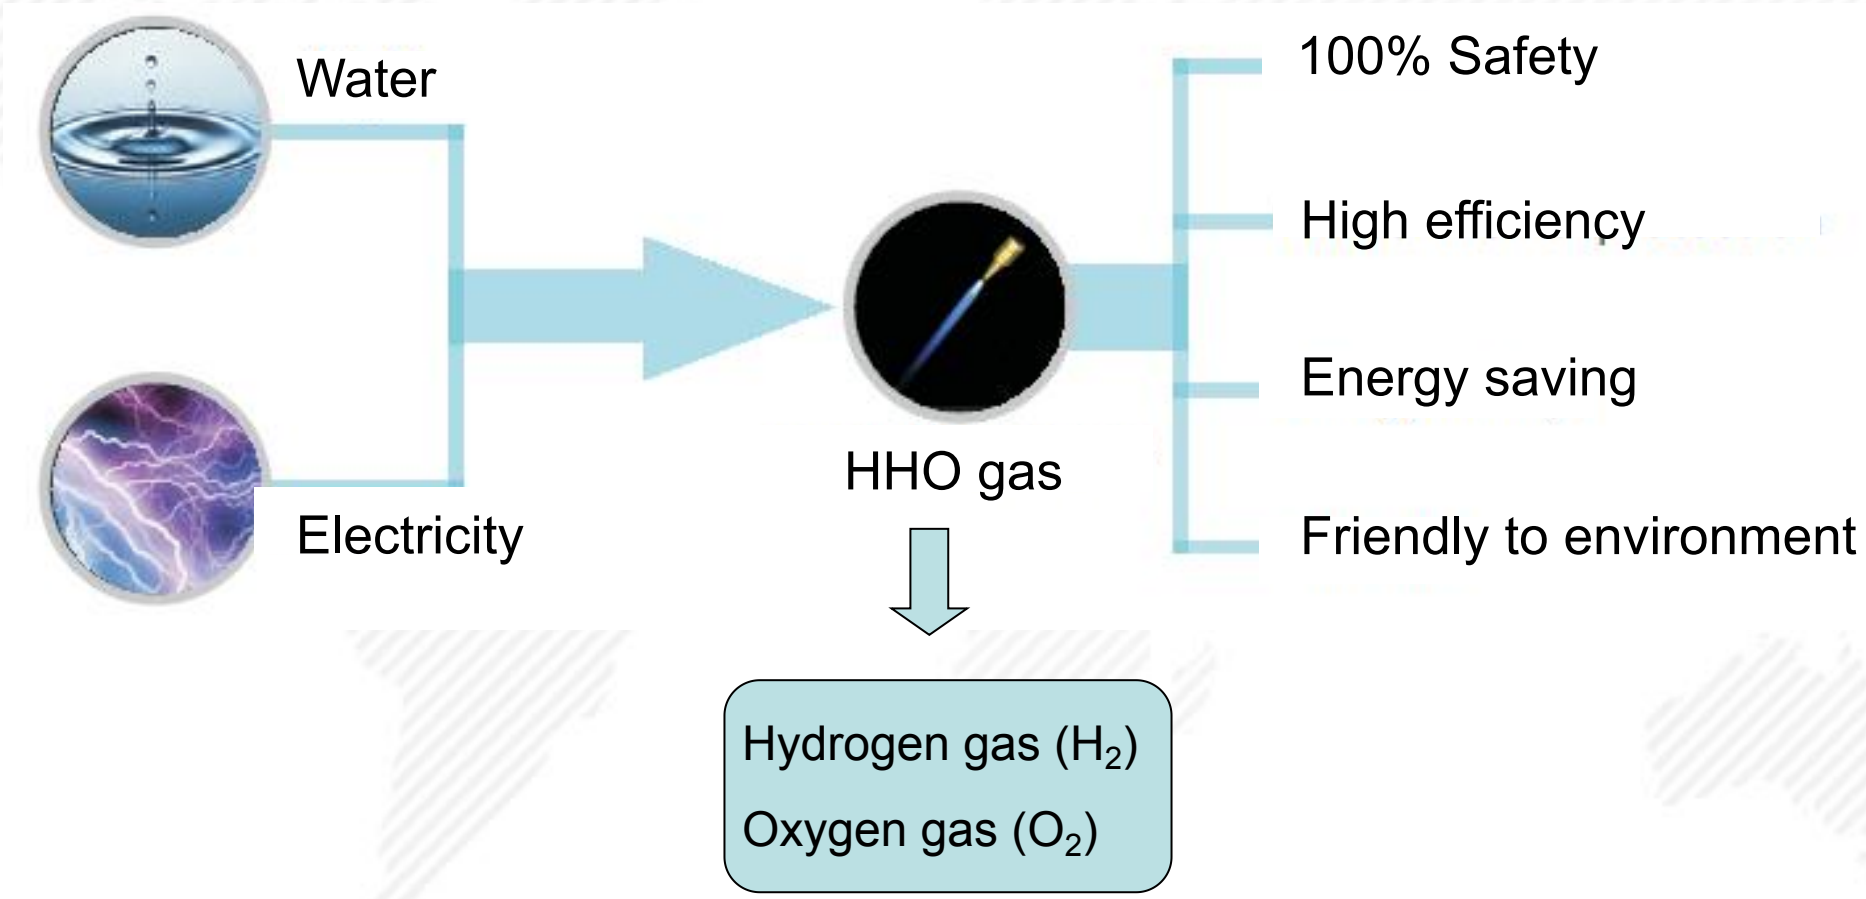

How Does HHO 6.0 Work

2. How does HHO 6.0 work?

KING KAR
ECO TECHNOLOGIES

How Does HHO 6.0 Work

- **Working Principle of HHO 6.0**

KING KAR
ECO TECHNOLOGIES

How Does HHO 6.0 Work

- **How does HHO 6.0 work?**

1. HHO Carbon Cleaner Machine produce hydrogen gas (H_2) and oxygen gas (O_2).
2. H_2 and O_2 will be sent into engine through vacuum pipe or air intake.
3. H_2 gas will run into the surface of carbon deposit, and combine with carbon to form hydrocarbon.
4. Hydrocarbon will make combustion with O_2, then, carbon deposit will be removed.
5. HHO Carbon Cleaner Agent enhance cleaning effect, protect engine parts and extend the engine lifetime.

How To Clean Engine

3. How to clean engine?

KING KAR
ECO TECHNOLOGIES

How To Clean Engine

- **Does your vehicle have the following problems?**

KING KAR
ECO TECHNOLOGIES

How To Clean Engine

- **What makes a vehicle with so many problems?**

A dirty engine with carbon deposit, which is a new threat to the vehicle performance.

(Eg: Equal to human being has something wrong with their HEART)

KING KAR
ECO TECHNOLOGIES

How To Clean Engine

- **Why there comes a dirty engine?**

1. Stop-and-go traffic conditions
2. Imposed speed limits
3. Fuel quality is not good
4. New anti-pollution requirements
5. Driving at low speeds to save on gas/oil.

KING KAR
ECO TECHNOLOGIES

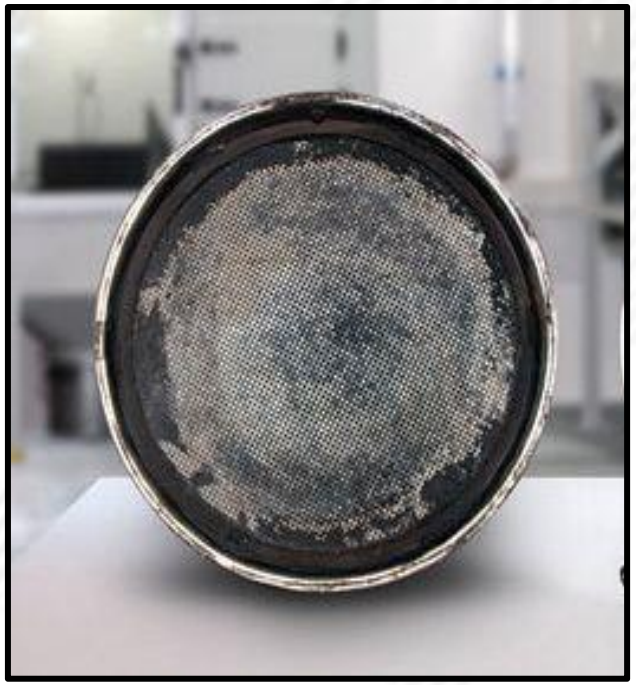

How To Clean Engine

- **Where to find carbon deposit?**

(1) Catalytic Converter

(2) DPF / FAP Filter

(3) Piston and rings

How To Clean Engine

- **Where to find carbon deposit?**

(4) Fuel Injector

(5) Spark Plug

(6) Oxygen Sensor

How To Clean Engine

- **Where to find carbon deposit?**

(7) Combustion Chamber

(8) EGR Valve

(9) Manifold

KING KAR
ECO TECHNOLOGIES

How To Clean Engine

- **How to remove carbon deposit?**

1. Chemical foam cleaning method.

2. Chemical drop cleaning method.

3. HHO 6.0 cleaning solution.

KING KAR
ECO TECHNOLOGIES

How To Clean Engine

- **The differences among foam, drip, and HHO 6.0**

	Chemical foam method	Chemical drip method	HHO 6.0 solution
Medium	Chemical foam additive (acid, alkali, substances)	Chemical additive (acid, alkali, substances)	1. HHO gas, 2. HHO cleaner agent
Operation	complicated, 50 minutes	complicated, 50 minutes	simple, 20 minutes
Cleaning effects	Not good	Not good	Good
Pollution	Pollution to environment, and to people	Pollution to environment, and to people	None pollution
Damage to engines	chemical damage the engine parts	chemical damage the engine parts	no damage to engine parts
Cost	1. Chemical foam, 2. Engine oil, 3. Engine oil filter, 4. Worker cost.	1. Chemical drip, 2. Engine oil, 3. Engine oil filter, 4. Worker cost.	1. Electricity, 2. HHO cleaner agent.

KING KAR
ECO TECHNOLOGIES

How To Clean Engine

- **The rusults after cleaning**

How To Clean Engine

- **The results after cleaning**

1. Improve engine performance.
2. Increase engine horsepower.
3. Reduce oil consumption.
4. Speed up easily.
5. Prolong engine lifetime.
6. Save costs of repairing and changing parts.

4. How to do business?

KING KAR
ECO TECHNOLOGIES

How To Do Business

- **How to do this business very well?**

1. Service
   buy a machine and offer carbon cleaning service

2. Sale
   buy a machine and sell it to end user in your market

3. Lease
   buy a machine and lease to end user, and share service cost

How To Do Business

- **Who will be your potential customers?**

1. 4S shops of branded cars
   Audi, BMW, Ford, Volkswagen, Porsche, Buick, Honda, Cherry, etc

2. Auto repair garages or maintenance workshops

3. Petrol, diesel, gas station, or large scale parking lot

4. The station for exhaust gas service
